Job Summary

As a Business Development Manager for Feed & Farm ingredients, you will be responsible for driving sales and revenue growth by developing and implementing effective sales strategies within the feed & farm industry. This role requires a deep understanding of feed & farm ingredients, industry standards and practices, market trends, and customer needs. The Business Development Manager will lead a Business Development team, build strong customer relationships, and collaborate with cross-functional teams to achieve business objectives.

Key Responsibilities

1. Sales Strategy and Planning:

- Develop and implement sales strategies to achieve revenue targets and market share goals.
- Analyze market trends, competitor activities, and customer feedback to identify growth opportunities.

2. Customer Relationship Management:

- Build and maintain strong relationships with key customers, understanding their needs and providing tailored solutions.

- Conduct regular meetings and presentations to communicate product offerings, promotions, and industry updates.
- 3. Product Knowledge:**
 - Stay updated on industry trends, product innovations, and regulatory changes related to feed & farm ingredients.
 - Train the sales team on product features, benefits, and competitive advantages.
- 4. Sales Forecasting and Reporting:**
 - Monitor and analyze sales performance metrics, providing regular reports to senior management.
 - Develop accurate sales forecasts and budgets, adjusting strategies as needed.
- 5. Market Research:**
 - Conduct market research to identify new business opportunities and potential customers.
 - Provide insights on market trends, customer preferences, and competitive landscape.
- 6. Team Leadership:**
 - Lead, motivate, and manage a business development team, providing guidance, training, and support to meet individual and team targets.
 - Foster a collaborative and results-driven culture within the business development team.
- 7. Collaboration:**
 - Work closely with innovation and supply chain teams to ensure alignment and effective communication.
 - Collaborate with internal stakeholders to address customer inquiries, resolve issues, and improve overall customer satisfaction.

Qualifications

- Bachelor's degree in Animal Science Engineering, Subsistence Farming, and Animal Husbandry.
- 5 years experience in B2B business (Animal Health/ Feed Nutrition/ Agriculture, preferably in feed & farm ingredients).
- Analytical mindset and the ability to interpret sales data, market trends, and customer insights.
- Strong understanding of food manufacturing processes and ingredient applications.
- Excellent leadership, communication, and negotiation skills.
- Ability to travel as needed to meet with customers and attend industry events.
- Results-oriented with a track record of meeting or exceeding sales targets.
- Familiarity with CRM software and sales analytics tools.
- Fluent in English, verbal and written.
